## Field Fence

Field Wire fence is a kind of mesh used in cattle, goat, deer and pig, etc. Field Fence is perfect for containing farm livestock, and features smaller mesh openings near the ground to prevent hoof injuries from animals "stepping through" the fence.

### 1. Type:

Fixed Knot type

Hinged Joint type

### 2. Material:

High tensile galvanized steel wire

Low carbon hot dipped galvanized wire

High carbon hot dipped galvanized wire

Low carbon electric galvanized wire

PVC coated wire

### 3. Specification:

Image	Field Fence (Kraal Network)	
	Pattern	Hinge joint knot, Fixed knot
	Material	High tensile galvanized steel wire High carbon Hot-dip galvanized wire Low carbon Hot-dip galvanized wire Low carbon Electric galvanized wire PVC coated wire
	Wire diameter	1.5mm, 1.6mm, 1.7mm, 1.8mm, 2.0mm, 2.2mm, 2.5mm
	Top & Bottom wire	2.0mm, 2.2mm, 2.5mm, 2.7mm, 3.0mm, 3.5mm, 4.0mm
	Vertical spacing	150mm/6", 300mm /12"
	No. of Horizontal wire	7 – 23 and More
	Height	0.8m, 0.9m, 1.0m, 1.2m, 1.4m, 1.5m, etc.
	Length	50m/165ft , 100m/330ft
	Roll diameter	200mm – 250mm
	Zinc coating	20g/m2-330g/m2
