Shaped Wire

The shape of cross section: Flat wire, oval wire , square, ladder, semi-circular, triangular, hexagonal, diamond, etc.

Material:301、302、304、304L、316、316L、310、310S、321

Wire diameter: 0.01-10mm (GB/T14796-2002)

Oval Wire:

The Specification of Oval wire:

(1)Size:3.0*3.9mm; 2.7*3.4mm; 2.4*3.0mm ; 2.2*2.7mm; etc.

(2)Raw Materials: Carbon steel wire or stainless steel wire

(3)Finish:Hot Dipped Galvanized, Electric Galvanized.

(4)Zinc coating:40g-270g/m2,

(5)Coil packing:1000 meter per coil for 2.4mm*3.0mm; 1250 meter per coil for 2.2mm*2.7mm

(6)Breaking Load:600kgf/mm2, 700kgf/mm2, 800kgf/mm2 ; max. 1400kgf/mm2

(7)Other specification can be made on your requirements.

Flat Wire

The Specification of Flat wire:

Material: low carbon iron wire (Galvanized iron wire/Black Wire), Stainless Steel Wire, Copper coated wire

Thickness: 0.250mm-5.33mm

Width: 1.524mm-19mm

Application: It used wide in building (construction), handicrafts, wire cloth weave, highway protective barrier, product packaging and daily civil products etc.
